

# Heat Sealing Equipment

## AutoOpen and MAXX™ Heat Presses

AutoOpen

Never burn another pill card again! Pull the handle down and walk away. The AutoOpen sealer will automatically lift the heat plate completely off of the cards after they are sealed. Get a consistent seal every time with the digitally controlled seal time and temperature. No compressors or hoses needed, all you will need is a standard 110 outlet.

The MAXX™ Press manual heat presses come in either a 2 card or 4 card size. They provide a low cost way to get into heat sealing pill cards.

MAXX™ Press

### Standard Features & Specs

#### AutoOpen (1007A-1)

Overall Dims: W 16" x H 28" x D 23"
